EXPERIENCE

GOOGLE AFRICA SCHOLARSHIP 2020
In the year 2020, I took the bold move after starting my web development journey within projectDIY to participate in Google Africa Developers Scholarship where I was awarded a certificate as a Mobile Web Specialist.
Through the gads learning with pluralsight i built a music album with angular and a weather project with javascript.

ProjectDIY 2020
In 2020 I started my web development Journey with projectDIY.
ProjectDIY is a group of tech advocates whose aim is to ensure that young people like me are equipped with tech related skills.

This is where my journey began.

August 2017

LANGUAGES
Javascript

Music Album with Angular

As my final task in Google Developers scholarship, I built a music album with Angular, through this project I learned a bit of typescript.

Weather App
A simple weather web application which displays the weather condition of a place in real time.
I built this web application during the Google developers scholarship 2020.

Quiz Web App
To further advance my knowledge of javascript, I built a quiz app which reshuffles questions and saves the names of players by the end of each session.
